1. Claims 1-4, 6 and 7 are again rejected under 35 U.S.C. 103(a) as being unpatentable over applicants' statement of the prior art for the reasons of record.

Applicants' assertion to the contrary, use of a known ink jet recording base in combination with a known ink jet recording layer does not constitute a hindsight reconstruction of their claimed invention. The Chen 132 Declaration fails to address the issue that applicants acknowledge in their 131 Declaration of 08/24/2005 that "Neither the composition nor the paper base used in this invention is new ...". Given this admission, it would have been obvious one of ordinary skill in this art to make the aforementioned combination of a known ink jet recording base with a known ink jet recording layer.

2. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
